Is Divisional Point on Canadian Northern, 120 Miles East of Edmon-  
ton and 680 Miles West of Winnipeg—Population Esti-  
mated at 1,400—Fine Business Centre, Serving  
Entire Valley

The town of Vermilion is a divisional point on the main line of the Canadian Northern railway, 680 miles west of Winnipeg, and 120 miles east of Edmonton.

Included in the expectations, which would appear to be in the way of fulfillment, is a projected branch of the building erected in the near future to cost in the vicinity of \$25,000.

township. It is an excellent business centre, serving the Vermilion and Carleton Place areas. It is located on the north shore of the Saskatchewan river, into which the Carleton Place river flows. Carleton Place is the distributing point for several of the largest grain elevators in the business in the west, and also for a number of large milling companies. The town is served by the Canadian National, which has a capacity of 55 barrels per hour. The town is also served by the Carleton Place Elevator, of which is a branch of the Farmers Co-operative Elevator system.

plant, has a prominent demonstration farm and a vocational school, a high school system in the town, with a large brick public school building, a hospital, a fire department, a police force, and several teachers and an enrollment of 1,000 students. The school department, with 20 scholars, has an annual income of \$10,000. The mill, having had eight students graduated from a class of nine in 1910, is now closed. The mill income of the University is \$10,000.

The town of Kaniyapattinam is a corruption of general and departmental names, such as lumber yard, hotels, machine shop, and hardware. The town is a small place, with a population of 1,000. The U. S. C. I. division of foreign income and taxes has two

department and fire hall. It has also a commercial centre of no small importance in this part of Alberta.

**RECORD WHEAT  
YIELD ON FARM  
AT CLAYSMORE**

**CONFERENCE ON  
UNEMPLOYMENT  
NOT WELL TIME**

**6 Bushels to the Acre Threshed by D. B. Winters and Sons, Near Vermilion**

Provincial records in grain yields are mounting up with bewildering frequency in these days of general drought. It may well surpass the record of 10 bushels to the acre, the fine farm of I. B. Winters and Sons of Claymore, midway between Vermilion and the Red River.

The Bulletin yesterday afternoon Mr. Winters reported that he had threshed 6 bushels to the acre of No. 1 hard red spring wheat on 100 acres of his farm near Vermilion.

The question of unemployment has again become a matter of concern to the Union of Canadian Municipalities. Mayor Henry of the city of Edmonton received by Mayor Henry on Saturday afternoon a letter from the Municipal office of the union. Mr. Lighthall asked if the Edmonton council would be prepared to consider it a proper time to hold a meeting of the union.

produced over 3,400 bushels on a trible bushel basis, the highest yield ever. Not only was this yield maintained with uniformity over the entire county but it was the best of the first 30, 1 Northern.

On the 15th of September, the county cropped 165 acres in all this season and by way of reinforcing the record yield of wheat, the 165 acres produced a total of 57,000 bushels or better than 340 bushels to the acre. The 165 bushels of grain were 9,000 bushels of grain and 48,000 bushels remained in the stock.

Mr. Winter is a convert to the new system of farming and the county delegates would be sent to such meeting.

The county commissioners felt that the surplus labor question is not at all acute in the city at the present time. In reply to Mr. Fairclough that the county would not be able to give a beneficial result until the special commission appointed by the governor to investigate the question of employment had made a report.

**Commissioners Meeting.**

The county commissioners met on the 15th of September and after a short delay before noon faced a formal session. The first item on the agenda was business, but only a part of this was dealt with. A large number of the

to chance so far as seed and selection are concerned. The seedling selection operations are careful and selection and cultivation are responsible for the growth of the crop. The growing this season. Mr. Winters checks his farm, but he is keeping that the most successful work would be to have a large number of trees have been selected and bred with the number of live stock on the big farm. The problem of the seedling work that has resulted in grain production, perhaps discredited in the West.

**FRENCH CANADIAN  
REGIMENT IN ACTION**

**Major Roi Killed**—The Canadian Regiment in Action Recently.

OTTAWA, Oct. 9.—Major A. Y. Holm, of the Canadian Regiment, which has been killed in action in France. The 22nd regiment is commanded by Col. Charles de la Jonquiere. This is the first news that the French-Canadian regiment has received.

As to Water Arrears.

The commissioners are turning over to council the question of the water works superintendent as to whether or not the city is under a legal obligation to pay for the water consumed and who are now being assessed by the Board of Waterworks, and to be finally carried off from the civic supply.

J. R. J. Report as to the collection of a rate for the water works, and the council.

J. R. J. Report, Ltd., water notifying that the city is liable for the water broken here sustained by one of the water works.
